MISSION

Commitment in manufacturing all products with excellence and innovation allied with the health professionals and patients perception, for the welfare and quality of life for the users.
HISTORY

Consolidated in the hospital market over 25 years, Casex has been developing products for this segment according with the international standards and marketing demands. With a wide range of goods for the Ostomy and Advanced Dressings lines, Casex cares for quality and safety on its manufacturing.

INDUSTRY

Currently installed in Curitiba – PR – Brazil, we are only at 20Km of the International Airport, 100km of the Paranaguá Port and close to many roads.

In 2010, we opened a commercial office in São Paulo.

We have an exclusive “clean room class 10.000” for the manufacturing of the hydrocolloid and dressing, and also a laboratory to test and develop new products.
QUALITY

Casex develops suppliers for raw material, equipments and services, inside and outside of the country, working only with the most renowned companies.

Our goal is to be recognized as a model for quality, due to the highly trained and compromised employees, providing security and compromise in the products and services.

In order to guarantee the quality of the products we not only make tests in our own laboratory, but also in specialized companies, where we send 0.5% of production to be analyzed.

Besides that, we also have the following Certifications:

• ISO 9001/2008 by BRTÜV/INMETRO
• Good Manufacturing Practices by ANVISA (Agência Nacional de Vigilância Sanitária - National Sanitation Agency)
• European Certification - CE Marking by BRTÜV/INMETRO
• ISO 13485 by TÜV GERMANY

PERFORMED TESTS

Ostomy Line
• ISO 8670-2
• ISO 8670-3

Wound Dressing Line
• Clinical Study Of Potencial Dermal Irritation
• Cytotoxicity
• Sterility
PROFESSIONAL TRAINING PLAN
One of the pillars of the success is the compromise with quality due to the qualification and constant training for the employees.

COMMERCIAL PERFORMANCE
Quality and innovation are the strong points of marketing for Casex products, which are sold all over Brazil and exported for more than 30 countries.
The web site is www.casex.com.br, where you can find information of the company, launch of the products, news, events.
